The original publication of this article [1] contained an incomplete author contribution section. The incorrect and correct information has been listed in this correction article. The original article has been updated.

Incorrect

IG, MT, MS, JP, NE, LC, FL, AK, NG, ET, PG conceptualised the project. All authors were involved with generation of the protocol. IG, MT, ATM, MS, GP and JP wrote the first draft of the manuscript. All authors listed have been implicated in the development of the ongoing project described in the protocol including patients. All authors were involved in editing and approving the

manuscript. The corresponding author attests that all listed authors meet authorship criteria and that no others meeting the criteria have been omitted. IG, MT, MS, and AK act as guarantors.

Correct.

IG, MT, MS, JP, NE, GP, LC, FL, AK, NG, ET, PG conceptualised the project. All authors were involved with generation of the protocol. IG, MT, ATM, MS, GP and JP wrote the first draft of the manuscript. All authors listed (IG, MT, AM, MS, JP, NE, LC, RK, IG, MR, DR, JS, JP, PA, ET, IG, MG, RM, RH, JH, MF, AM, AJ, AS, MJ, MC, AD, SD, PT, CF, AL, PN, MM, HK, FS, FC, AA, MK, LK, JF, PK, TK, LC, FL, AK, PG) have been implicated in the development of the ongoing project described in the protocol including patients. All authors (IG, MT, AM, MS, JP, NE, LC, RK, IG, MR, DR, JS, JP, PA, ET, IG, MG, RM, RH, JH, MF, AM, AJ, AS, MJ, MC, AD, SD, PT, CF, AL, PN, MM, HK, FS, FC, AA, MK, LK, JF, PK, TK, LC, FL, AK, PG) were involved in editing and approving the manuscript. The corresponding author attests that all listed authors meet authorship criteria and that no others meeting the criteria have been omitted. IG, MT, MS, and AK act as guarantors.

[†]Isabel Graupera and Maja Thiele contributed equally to this work.

Ready to submit your research? Choose BMC and benefit from:

- fast, convenient online submission
- thorough peer review by experienced researchers in your field
- rapid publication on acceptance
- support for research data, including large and complex data types
- gold Open Access which fosters wider collaboration and increased citations
- maximum visibility for your research: over 100M website views per year

At BMC, research is always in progress.
